

Horses

Horses in the Himalayas are used for transport. In Kambachen, we learned that this year transport of one kilogram of goods carried by porters is cheaper than horse transport. - Nepal is in crisis. Thousands of people do not have a job. That's why we saw only few horses during this trekking. This season, the goods are worn by people on their shoulders. The porter carries over 50 kg. Horse up to 100 kg. In the Khumbu area, the yaks carry goods.
